Detailed Project Description and Justification:

A new Palmer Senior Citizens Center will provide services to a growing membership (currently 356) of seniors in the Palmer area. The senior center currently serves more than 20,000 meals annually, delivers 36,500 meals to the homebound annually, provides transportation services, manages a senior housing facility, provides adult day services, employment assistance, chore services, care coordination, and is a designated emergency site in case of a major disaster.

The existing senior center is in a retrofitted church building and is experiencing significant repairs and needed upgrades. The existing facility is rapidly becoming too small for the growing number of seniors who use the center each day.
